She is the author or coauthor of several books, including the Career Ideas for Teens series for Facts On File and Checkmark Books. Reeves also conducts workshops on teaching career-planning skills to students and is the founder of Bright Futures Press.

The book is very helpful for kids. Helping them decide on a possible career choice in music or dance fields.

This is a really great book for kids and frankly it's better than most adult career guides in that it

features a wider range of careers and interviews with people in each type of job. It's a great starting point for researching careers.

This is a really good book. It shows different kinds of jobs and what the people do step through step. Although some of the websites don't work. You know that the author should make updated books.
