Customer Reviews

Good book for a beginner. What you should know is that the book assumes you are in a group and have an instructor playing accompaniment. Does not come with a data disk but it does reference them. Download time!

The book is easy to follow and very fun to use. The only issue I had was with the binding. My brother's dog literally latched onto it with her teeth and then in one swipe ran off with it. If it was spiral bound, I think it'd make my life a lot easier.

My child goes to a performing arts school, and this is their book of choice to teach the kids piano / keyboard. Great learning book!!

My child has only had one lesson with her group but I am amazed at what she is already playing here at home! No regrets!

Great buy and condition was good too. Depending your location it took over 2weeks to be delivered to Hawaii but saved me a lot of money.

Had to buy it for school.. ended up keeping it because it was decent

I went through this whole book in an INTENSE university beginners piano class semester at USU. Great book, but intense for beginners like me with little music background.

Fast service. Excellent product for cheap dollars.
