Customer Reviews

We just booked a trip to Aruba and I was searching for a Kindle travel book to give me some details on the island. Most of the ones I saw on weren't very well rated, but this one was cheap, so I figured why not. Really there's not a whole lot you can say about the island - I mean, there are beaches, hotels, and clubs, the end - but for \$2.99 this gave a good, condensed overview and told me basically all I really needed to know in the time it's taken me to write this review. I liked that it included some facts on culture but didn't bore me with it. This book is probably no good for hard-core trip planners, but for anyone whose primary goal is lazing on the beach all day but also wants to know some general info about the island, this'll do just fine.

Great guide to a beautiful island! Tells future visitors all the ins and outs of a beautiful island. Excellent guide and updated too.

This book is rather sketchy on information and probably needs updating. I would recommend using the other guides such as Fodor's which contains much more info!
