I love this guide. Nice quality, great extra map (very sturdy), lots of informations in it, but not confusing. I love it when you get tips& hints on what to do in a compact way. Pictures, maps and lots of infos....if you need a book guide...take this one. Great! We bought two of those, one for Toronto and one for Montreal....This will be the first one I will look for if I need another Tour/Travelguide book again.

I have used the Day to Day books for several major cities, and they are always an immense help. My only criticism, and this can be said for many travel books, is some of the attractions are played up a little too much, making them sound more exciting than they actually are.

Came across this book while searching for Toronto guidebooks and it looked promising so ordered a copy. If this is typical of Frommer's Day by Day series, they have a winner. It's very informative and gives good descriptions of places to stay and see. I'm not into dining or shopping while on vacation so can't comment on those aspects of the book. The maps are excellent especially the foldout one which really came in handy and that of the subway system. While I decided to stay in Niagara Falls, CA, instead of Toronto, I traveled to the city twice bringing the book along with me. Easy to do because of it's size and light weight. Very helpful book which is more than I can say for most guidebooks!

Not as easy to use as the first guide (Frommer's Toronto). Might be good as a supplementary guide. Will probably use it for more detail in interesting areas or categories.

I bought this guide book mostly because it was small enough to fit in my bag, which is essential when exploring a city. Although there are other similarly-small guide books on the market, I liked this one the best because the information was well organized and the descriptions were simple yet informative (don't expect tons of history to be included). I especially liked the convenience of the subway map that unfolds from the front cover, and the downtown map behind it. The larger fold-out map was also helpful and sturdy, but I did not like the plastic pouch that it was in...I would have

preferred a top-loading pouch so that I could more easily access the map and put other papers in it, too. I also would have liked a route map of the streetcars and buses, but that might be too cumbersome. We also ate at one of the suggested restaurants (E-pan), and it was just as described! Definitely recommended!
