Don't throw yesterday away! Just. . . 1. Fold it! 2. Cut it! 3. Open it . . .to a stunningly beautiful design by Jeff Cole. Each page of the Kirigami Fold and Cut-a-Day 2013 Day-to-Day Calendar offers a new unique cutout for hundreds of designs throughout the year. It's easy and fun with step-by-step illustrated instructions for each day!

It's pretty much what it says it is. Folding and cutting. Days (i.e. patterns) are printed on origami style paper. If you like making snowflakes (so far that's it) or just like playing with paper this is a good buy. **Problems: The very first pattern to cut out is completely wrong. Don't expect it to work. (Another reviewer mentioned putting the correct pattern up. I'm not very tech savvy, but essentially the pattern on the right side of your finished fold should be on the bottom of the folded form, on a diagonal line above the folded flaps.) Also a quick thumb through the upper right corner of the page show that not all the fold lines are lined up right. Most (not all) of the designs have a diagonal fold line from lower left to upper right. If that line doesn't go corner to corner, expect the pattern to be slightly off.

I use this in therapy and kids are very excited when it comes time to unfold, and extremely pleased when they see their finished products. There are 4 levels of difficulty with several different types of folds, such as snowflake, spider, heart, and butterfly. Each different type of fold has a card stock instruction card to show how it is done. You will need a good pair of sharp scissors, an exacto or other type of sharp knife for cutting out small, detailed areas, and a round punch is very helpful. The box is thick, the lid is hinged, and it is holding up extremely well for me. So glad to have stumbled on to this product. I will be searching it out each year from now on.

If you have never cut kirigami, this is the perfect way to start. I have collected the Day-to-Day Calendars for years, and still use some designs from 2009! The box has a nifty way of staying open so you can easily see directions. Each year has slightly different colors, and 2013 is no exception. This one includes many 2 sheet butterfly patterns, and 2 or more sheet flowers. For the different layers, they even coordinated the colors so you have light and dark to compliment your flower kirigami folds. The directions for each style of base fold has it's own sturdy card to look at again and again. An excellent way to start kirigami, or to continue in your kirigami efforts.

For the child in every adult. Have fun. Put on your windows. snowflakes for all seasons.

I love Kirigami. Although I haven't finished the year because there are so many and I can't do them every day. I wish that the patterns were separate than the paper though so that I could keep the ones that I really like for future use. I do try to copy them, but that pushes back my creations even more.

This Kirigami Calendar is the greatest gift ever! It is a daily calendar. Then the next day, you take the sheet from the day before and follow the Kirigami directions. Our daughter has a stack of the most beautiful paper cut-outs we've ever seen. And she has no prior experience with Kirigami. What a great way for a little hands-on craft every day! Does the mind a good turn!

I love desk calendars. I choose a different type each year. You do a simple craft each day. I do origami and wanted to learn kirigami. I would recommend this for elementary ages to senior citizens. Instructions are easy to understand, paper quality is good for folding and cutting. I'd like to keep every kirigami but don't know how I would display all of them.

This calendar is a great way to learn the basics of kirigami. It provides simple instructions and gradually builds up to more advanced cutting. I just wished there was a place to download the patterns for later use!
